

PERMEABLE PAVERS

from Whitacre Greer

Sheds water like you-know-what

Permeable Boardwalk

Whitacre Greer Permeable Clay Pavers are based on our award-winning Boardwalk pavers. The entire line is ADA compliant and

available in the full palette of colors, including custom blends of standard colors. These pavers are 3 inches thick to stand up to both pedestrian and vehicular traffic.

Features*

- 11% Void Space
- ADA Compliant - Joint width 3/10"
- Available in all standard colors
- Also available in a multi-shade recycled product
- Colorfast clay product
- Qualifies for LEED credits
- Storm water management
- Reduces Runoff
- Traps pollutants
- Eliminates water ponding

* When installed using industry standard best practices. Consult an engineer for hydrology and load-bearing design considerations.
