# Glen-Gery Commercial Paving Brick

The natural warmth of genuine brick pavers creates inviting outdoor spaces for public areas, landscaping or to tie together architectural elements on a more human scale. The palette of rich earth tones is appealing in either the soft silhouette of molded brick or the crisp lines of precision extruded. Special effects can be achieved combining complementary or contrasting colors and sizes.

Crown Repressed Chamfered  
Adrian, MI*

*Cypress Repressed Chamfered  
Civil War Museum, Harrisburg, PA*

*K&W Old Smokie Repressed Chamfered (Personalized)  
Columbia Town Center, Columbia, MD*

*26HB Clearburn  
Ephrata Family Eye Care, Ephrata, PA*

*K&W Old Smokie Repressed Chamfered,  
K&W Red Repressed Chamfered  
Joliet, IL*

*Cypress Repressed Chamfered  
Wrightsville Elementary, Wrightsville, PA*

Glen-Gery recommends that Paving Brick selection should always be based on an actual product sample.

Durable, low maintenance and stain resistant, brick pavers combine in a variety of bond patterns providing stability and strength that holds up beautifully under heavy pedestrian or vehicular traffic.

*Jersey Shale Red*
